

## OPERATION DRONER: SIGNS OF FALSE FLAG CONCERNING THE DORNER CASE

For many years our government has been playing [wag the dog](#) with the American people in order to produce the desired results that will enable them to achieve their agenda.

Take for instance [Operation Northwoods](#) where American citizens were targeted in order to fulfill the government's agenda of invading Cuba. Thankfully, President Kennedy refused to participate and tragically it ended up costing him his life.

Let's now fast forward to 1993 & 2001 where all evidence points to [government agencies implicated in both world trade center bombings](#).

The reason?

To blame it on countries they considered a stumbling block to the one world order and replace those governments with NWO friendly governments who would be on board with their agenda. Of course, oil is a plus as well as taking the

freedoms away from the American people with the excuse of the “war on terror”. All these are benefiting factors for those who seek total world enslavement of the common person.

In order to achieve this, all is left is to disarm the American people. A world ran by tyrants needs to disarm the population which they plan to invade, it’s really that simple. If history has not taught us anything about the past, then we deserve what’s coming in the future.

A Russian communist propaganda poster reads: “Comrades, turn in your weapons”.

Having said all that, let’s now shift to our current present time. We know that the government has been involved in black ops involving mind control techniques better known as [project ultra](#); in order to control and manipulate the population. This is no longer “conspiracy theory”, but a conspiracy fact. Anyone denying facts and truths, burying their head in the sand, truly deserves to be a slave of the NWO.

**But if that's not what you desire, then it's time to wake up!**

The US government has been using mind control techniques on the population for many years in order to further their agenda. Most recently mind control techniques have been used in school shootings in the midst of a gun control battle. Coincidence?

Hardly...; nothing happens by coincidence!

In this 1995 Illuminati card game illustration, we can clearly see that they are telling us in a “game fashion” that Satellites would be used for mind control purposes. Although I also believe they are using other techniques as well, such as control media, TV shows, music, and movies as propaganda tools.

This brings us to the **Christopher Jordan Dorner** story which I have reason to believe it's a well fabricated story designed to further their agenda regarding a police state in America and a New World Order.

For starters is it a coincidence that the name of the “hunted” individual who they portrayed as public enemy # 1 has the word “**Christ**” in his name?

Is it also a coincidence that Jordan was the name of the river where Jesus was baptized and also the name of the place that was part of the history of the Jews in the Land of Israel.?

Then we have the name "[Dorner](#)" which is of German descent. The Germans are well known for the Holocaust where billions of Jewish people die in the hands of the Nazis.

The name Dorner is also associated with Dorn or Dornau in Bavaria. Bavaria happens to be well associated with the Bavarian illuminati. The Illuminati also like to play with Words which is why we have the name "**Christopher Jordan Dorner**."

They are telegraphing future manhunts for **Christians** who are born again (**Jordan signifying baptism**); using Drones to hunt them down.

The bible does speak about the woman (being the church) "[fleeing to the wilderness](#)"

(This is where the Dorner (Drone) story comes to play)

The truth is that Drones would not only be used to hunt down Christians but any resistors to the New World Order. Therefore, a precedent had to be set to introduce these drones in our soil & be accepted by the American people.

They want you to accept the very tools of your destruction, while claiming to have your best interest in their minds. However, we see how they lie and daily persecute, oppress and criminalize the ordinary citizens while they let the real criminals walk free.

Why is the Dorner story potentially a good hoax?

To begin with, the so called "Dorner manifesto" states that he lost his job on **2008** & blames LAPD for it. That's 5 years from the supposed first killings.

So the man did not "snapped" right after he lost his job, 5 full years had to pass, to then cry about his job and go on a rampage right in the middle of a gun control battle.

We then have “Dorner” endorsing the whole Obama administration that happens to be anti-American based on their actions, which also include the gun control issue.

So technically we have a criminal endorsing criminal legislators and government officials.

**(This is the only part that would make sense. A criminal endorsing criminals!)**

But it doesn't stop there. **Actor** Charlie Sheen then makes a home video pleading for Dorner to “**call him**”.

Has anyone asked the question, how would an ordinary man who is wanted by the law suppose to give a high rank well protected Hollywood star a call without providing him the number or a way to call him?

Of course Charlie Sheen is not going to air his public number for all to know and harass him, but then again how on earth was Dorner supposed to call him anyway?

The video was made merely to give credibility to the Dorner story; you were not supposed to notice small details like these because they assume that your brain has already been damaged due to the florification of the water as well as their well founded dumb down means of entertainment.

So in all, we are left to believe that this man waited 5 years to do his killings, then opens a facebook account and implements himself in the killings.

Then we are left to believe that Dorner wrote a long manifesto, not only implementing himself on these killings, but warning of future killings of people he listed.

If this person was a real killer who really wanted to kill the people he listed, he would not have provided any information concerning his plans & the names of who he wanted to kill. That way he would have been stealth & effective in his mission.

Dorner was also supposed to be a well trained soldier. Soldiers don't give up their position, provided information to the enemy; neither warns them of a pending attack. **They simply use the element of surprise!**

Dorner in his so called "manifesto" **declared war against LAPD**, and then violates all rules of war by doing the opposite of what would be expected of a train soldier to do in a war. **That is - don't give up your position, don't give any information to the enemy that will potentially harm you & your troops, and attack without warning.**

Yet, we are left to believe that this Dorner guy was a highly well trained Rambo type of soldier. Whatever, the story is obviously made up!

And if Dorner was a real person who posted these things in facebook, then why his position was not triangulated as soon as he posted his first post?

Some may argue, well because he could of simply have hidden his IP address when he posted.

If that was the case, why the LAPD never even mentioned that they even tried to locate him this way? And why would Dorner hide is IP address, but incriminates himself?

If you're a reasonable person, does this make any sense to you?

I believe that Dorner was created not only to introduce new laws & regulations, but to also merge the Police with the military and push further the gun control issue. In addition, to have an excuse to introduce unconventional means of locating people that they consider "dangerous".

But also, to create in the process a folk hero who people would look up to and cheer for, to then crush that hero as a way of sending the message that they are unbeatable, don't even try it, therefore just submit to us. If we can get your hero we can also get you!

It also created precedents which opened doors for new laws and regulations that affect the public interest, while claiming that they will be used to "protect you"!

During the Dorner “man hunt”, Police were able to search homes without warrants, create road blocks, and search every vehicle, & pretty much do the kind of things that are done under martial law, like shooting first and asking questions later.

Were they really looking for a cop killer or were they simply practicing and preparing for something bigger to see how the public would react in the name of “justice”?

So who is or was the man used for the picture of Dorner?

It is very likely that he was in fact a military person killed in combat without a next of kin; that is with neither family alive nor with family of his own. That’s the type of person they would use for this operation for obvious reasons.

Another possibility is that the man behind the Dorner pictures was & is a paid participant, given a new identity as its often done for those under the witness protection program.

That is, once his mission would be accomplished by allowing the government to use his face & photographs for this operation, then they would assign him a new identity. So even if you see “Dorner” at your local restaurant, your mind can dismiss it as a “lookalike” and his new identity can also “prove it.”

After all, he is “officially” dead right?

Some may say, that’s impossible no one specially the government can keep a secret. Sure they can! Under constant threat of arrest, torture, and death is how the occult has been operating & hiding for thousands of years, and that’s how occult elements of the government continue to operate till this day.

I leave you with my last question of the day. Why is Dorner continuing to post on his facebook account after he is supposed to be dead?
